

TRIAL PRESENTATION TECHNOLOGY

Navigating Trials -- Even
During A Pandemic

Presenters

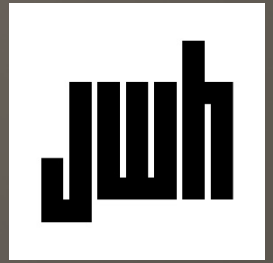

R. Colin Campbell, Esq.

Principal Attorney at Campbell and Associates, Inc.

Graduated from SUNY UB School of Law, 1991

Timothy M. Hunt

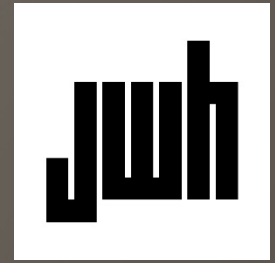

Vice President, Jack W. Hunt & Associates, Inc.

Case Specifics

Medical Malpractice Case -

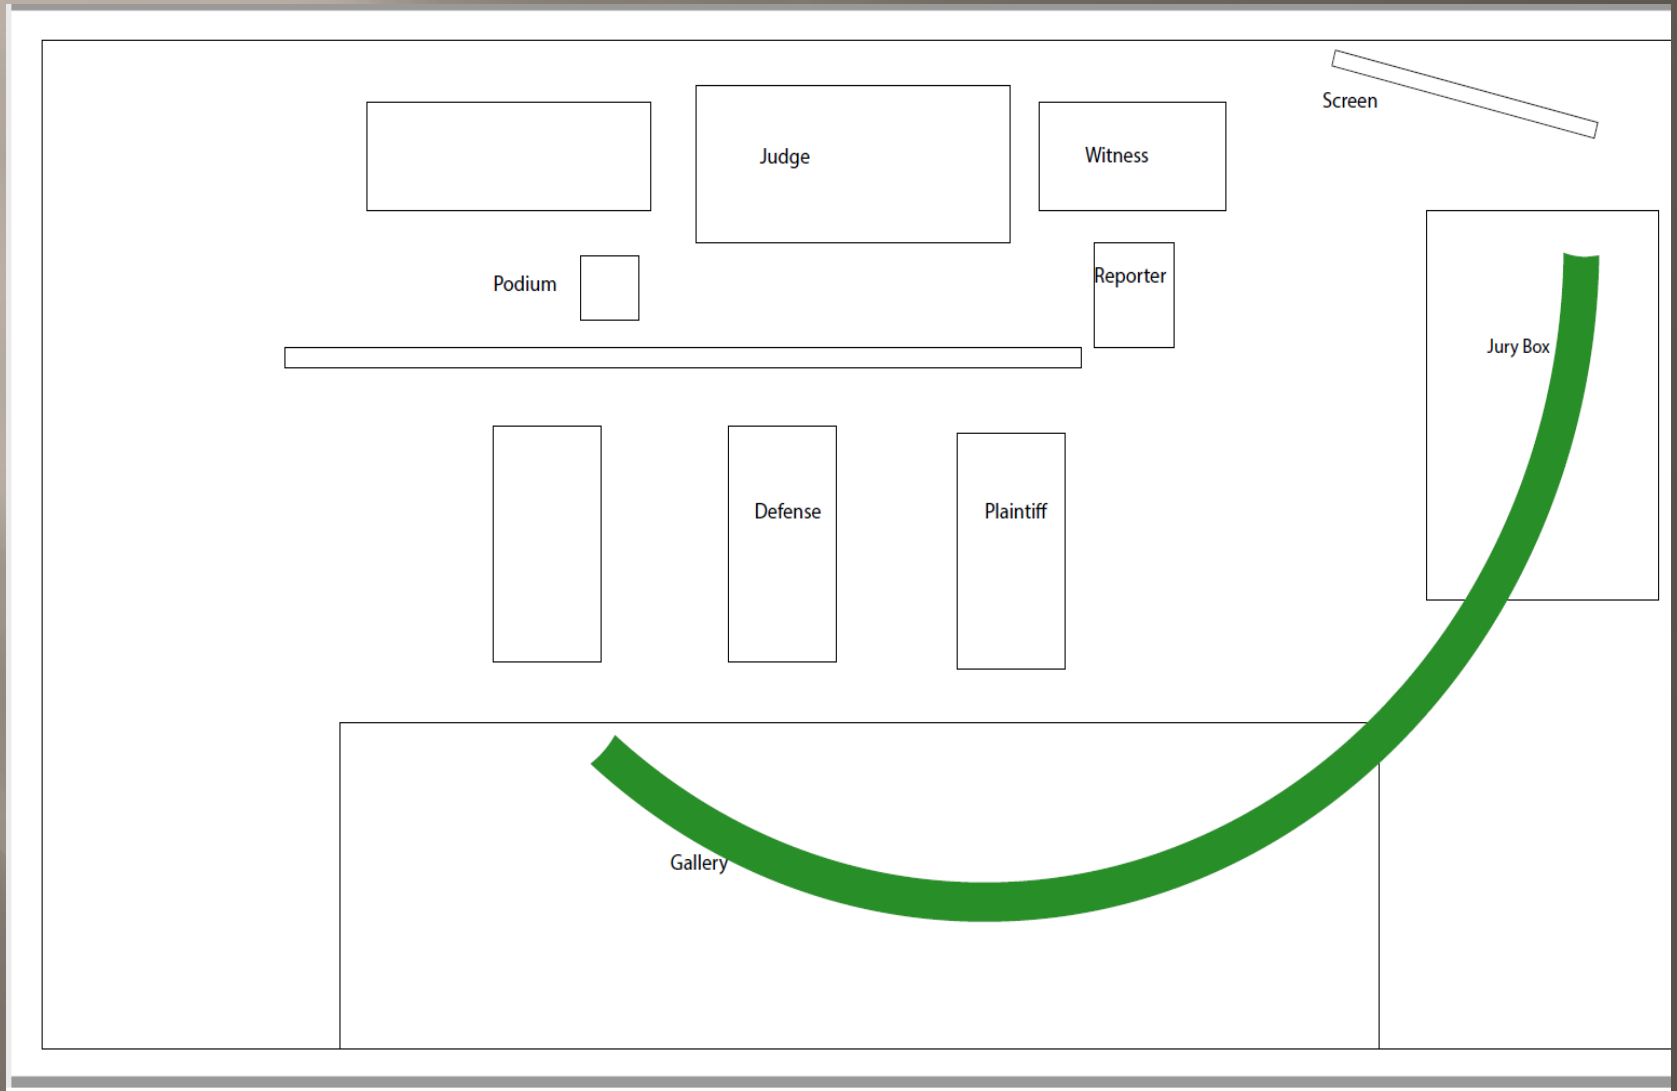

A bowel injury arising out of a hysterectomy surgery.

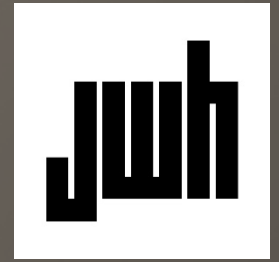

Trial Constraints

- Jury to be socially distanced with six feet between jurors.
- Masking of expert witness impacts normal presentation of testimony. This requires a shift to focusing on the exhibits.
- The exhibits used required manipulation for the witnesses' testimony.
- Jury would be spaced in a 270 degree arc from witness which did not allow for a single line of sight to the exhibits.
- While a screen was available in the courtroom, some of the jurors would have their line of sight to the screen blocked at times by questioning attorney.

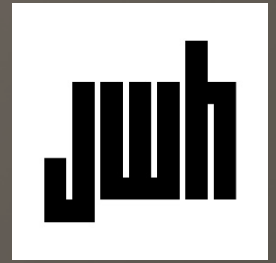

Courtroom Diagram

Solution

- ❑ A closed Zoom meeting was created
- ❑ Each Juror was provided an iPad
- ❑ The Court, opposing counsel, and the stenographer were provided an iPad for viewing of the exhibits being used by the witness
- ❑ The witness was provided an iPad as a reference so that they could see the exhibit as well
- ❑ An operator was engaged with a laptop to manage the connection and if requested bring up and manipulate the exhibit(s) as necessary
- ❑ If the witness was capable, they manipulated the exhibits as directed by counsel

Equipment Setup

- ▣ Dedicated Hot Spots
- ▣ iPads with auxiliary power supplies
- ▣ Operator Laptop
- ▣ Witness External to Courtroom:
 - Singular microphone
 - Microphone on stand for audio capture to far end participant
 - External sound bar for Courtroom presentation of remote witness
