

Dear: To whom this may concern

May, 2 2025

My name is Gabriel Rivera and I am writing to provide a character reference for my friend Mr. Moore, whom I've had the pleasure of knowing for the past two years of my incarceration here in Elmira Correctional Facility.

During our two year long friendship, I have constantly observed my friend's dedication to his rehabilitation. While incarcerated, Mr. Moore has obtained his associate's degree in both Arts and Social Science, which is the study of human society and social relationships. Mr. Moore

has also participated as a facilitator for the Alternative to violence program to help incarcerated individuals such as myself improve their interpersonal skills, including conflict resolution, communication skills and how to build within their communities. Mr. Moore's

accomplishments also include participating as a facilitator for the youth assistance project, to support and to empower the youth of our future. Besides all of Mr. Moore's accomplishments while incarcerated, he has always been a really good person and a really good friend. He is really helpful, he has always been respectful to those around him. Mr. Moore encourages those around him to go to school, ~~to~~ stay out of trouble,

to never give up and to focus on getting home to their families. Mr. Moore, also helps those around him enroll into school, productive programs and helps the elderly to get around the facility. It has now been 15 years since my friend Mr. Moore has gotten into any trouble within any facility and his focus has always been to become a better person, to respect himself and those around him, to keep a healthy relationship with his family, to fight against violence and to make it home to his family. I Gabriel Rivera know in my heart that if you were to release Mr. Moore into society today, he would be a productive, law abiding citizen. Society will be better with Mr. Moore in it.

Sincerely: Rivera G. #23-8-2898
